

Croatia (Koprivnica) - Interreg Europe - Digitalization and innovative business

Enter Koprivnica Ltd is looking for project partners to collaborate within the Interreg Europe program. Enter Koprivnica is a business support organization whose role is to stimulate the business climate in the city of Koprivnica and create the conditions for easier growth and development of newly established companies.

Enter Koprivnica is currently implementing several Interreg Europe projects:

- RegionArts on ICT and ART multisectoral collaboration
- EIS 2 on the creation of a framework for the internationalization of enterprises
- ECOS4IN which aims to strengthen Industry 4.0 by introducing digitalization in production processes and operations
- ScaleSMEs through which the partners want to develop specific training tools aimed at supporting people working in the CCI sectors to improve their skills and abilities.

Enter Koprivnica also operates two incubators: Business Incubator and Creative Industries Incubator.

Goal of the project

Stimulate digitization, innovative business models, create innovative SMEs and start-ups, stimulate multisectoral collaboration in their region.

Research recipients

Private and public organizations that want to develop project ideas, in particular in the field of creative industries, the digitization of SMEs and internationalization.
