

## **Romania (Bucharest) - Interreg Europe: Culture, Research and Training**

The National Institute for Cultural Research and Training in Bucharest is looking for partners for activities and projects in the fields of culture, research and training. The Institute is part of the Ministry of Culture and is the only national institute that aims to study, research and provide statistics and data in the field of culture and the training of professionals who help them choose a career in this field.

### **Target**

The areas in which they are looking for partners are:

- cultural heritage mapping strategies
- databases on the analysis of the perception and visibility of impact studies
- cultural programs
- promotion campaigns
- artistic events
- market studies relating to the profile of the public consumer / market studies particularly dedicated to the performing arts
- organizations of monitoring studies and timing of cultural management
- case study analysis for culture
- cultural development products

### **Research recipients**

Public administrations and private organizations operating in the fields of culture, research and training.
