Project Title: Extending the limits of nature and culture, expanding the horizons

The view and synchronization of the nature

We are a state foundation by which the youth between ages 7 and 29 can use social, cultural and sportive facilities for free, as it is a necessity for a social state.

The aim of the project: Bringing young people from different countries together, learning about each other, removing prejudice, experiencing the natural beauties, creating a consciousness for the nature.

10 attendants (m and f) between ages 20 and 29 who are interested in cultural, folkloric and natural beauties.

Exploring the folkloric and natural beauties in Bingöl province and its neighborhood, creating consciousness for a clean and better world, creating a consciousness for conservation of natural, cultural and historical heritage and transferring it to next generations, improving dialogue and communication among different cultures and nations is fundamental.
